

# INSPIRE A YOUNG FEMALE ENGINEER AT WOMEN IN ENGINEERING DAY

presented by

**FEBRUARY 22, 2019**

**8:00 - 1:30 PM**

**HOWARD COMMUNITY COLLEGE  
SCIENCE, ENGINEERING  
AND TECHNOLOGY BUILDING**

**This event is designed to inspire freshmen and sophomore girls enrolled in Howard County Public Schools' Project Lead the Way program to pursue engineering careers. Participants will explore, discuss and learn more about engineering through hands-on activities with women engineer mentors.**

# VOLUNTEER OPPORTUNITIES

## PANELIST/SPEAKER

Be a panelist or speaker where you can share career paths, challenges facing women engineers, explain a day in the life of an engineer and more.

## MENTOR

Work closely with small groups of students as they participate in a hands-on activity exploring design and testing in engineering. These break-out groups provide a wonderful opportunity to have meaningful conversations about women in engineering, as well as engineering fundamentals.

**Are you ready to meet the future women leaders in STEM?**
